Jithin Manjunadh Narra

9966186518 | jithinmanjunadh2003@gmail.com | GitHub | LinkedIn

Summary

Full-stack developer with hands-on experience designing and deploying web applications using Node.js, Express.js, and MongoDB. Proficient in RESTful API development, MVC architecture, and third-party API integration including AI services.

Technical Skills

Programming Languages: Java, JavaScript
Frontend: React.js, HTML5, CSS3
Backend: Node.js, Express.js, REST APIs, MVC Architecture
Databases: MySQL, MongoDB
AI: Generative AI, Large Language Models (LLM), Retrieval-Augmented Generation (RAG), Vector Embeddings
Tools & Platforms: Git, GitHub, Postman
Core Concepts: Object-Oriented Programming (OOP), Data Structures & Algorithms, Database Management Systems (DBMS)

Projects

RentNow – Rental Platform
Full-Stack Web Development Project | *Node.js, Express.js, MongoDB, Mongoose, EJS, Cloudinary*

- Engineered a full-stack vacation rental platform with 20+ REST API endpoints and end-to-end CRUD operations for listings, bookings, reviews, and user management using MVC architecture
- Implemented secure authentication using Passport.js with session management, route middleware, and flash messaging
- Integrated Cloudinary and Multer for image uploads, and Joi for server-side schema validation across all API inputs
- Integrated Google Gemini API to automate review summarization, delivering instant AI-generated insights from multiple user reviews
- Enforced role-based authorization to prevent self-booking and self-reviews, maintaining platform data integrity.

Developer Portfolio
Frontend Project | *React.js, Framer Motion*

- Developed a responsive personal portfolio using React.js with centralized data structures for dynamic rendering and scalability
- Implemented advanced Framer Motion animation system including staggered entrances, scroll-triggered transitions, and hover interactions
- Built reusable data-driven sections for projects, skills, education, and experience using centralized portfolio data, simplifying content updates and future expansion

Internship

Front-End Web Development Intern Aug 2025 – Sept 2025
Edunet Foundation (AICTE — IBM SkillsBuild) — Remote

- Designed and developed EasyBasket, a responsive e-commerce web application using HTML, CSS, EJS, and JavaScript
- Implemented frontend interactions including category-based product filtering, image carousel animations, persistent cart badge reflecting live cart count, and auto-dismiss flash notifications
- Extended the internship project into a full-stack application by developing a Node.js and Express.js backend following the MVC architecture, implementing authentication, product management, cart operations, and order processing.
- Implemented an end-to-end shopping workflow from product browsing to order confirmation, including server-side cart management, Joi-based validation, and order data preservation to maintain purchase data integrity

Education

Sri Venkateswara College of Engineering, Tirupati 2020 – 2024
B.Tech (Electronics and Communication Engineering) - CGPA: 9.02

Sri Chaitanya Junior College, Tirupati 2018 – 2020
Intermediate (MPC) - CGPA: 9.23

Little Angels High School, Tirupati 2018
SSC - GPA: 9.5

Certifications

Microsoft Certified: Azure AI Fundamentals
AI workloads, machine learning, computer vision, NLP, and generative AI on Azure. Issued 2026.

AWS Academy Graduate – Cloud Developing
Completed AWS Academy's Cloud Developing course covering cloud fundamentals and application deployment on AWS infrastructure.
